## OUR HORSES 2018.

*Dejan Kronic Sporthorses is committed to producing horses that meet three tests which we believe are essential to success in sport. Our horses are each bred to have **heart**: each one is willing to get the job done and has a natural ability to connect to the rider. They are bred to have **scope**: each horse must meet the highest physical standards to meet the demands of show jumping. And finally, each horse must demonstrate **mind**: strength and will must be combined with a sharp intellect, which allows the horse to use its heart and scope to achieve its full potential.*

Legendary **DARCO**'s list of competitive achievements with Ludo Phillippaerts includes 7th place at the Barcelona Olympics, 2nd at Spruce Meadows/Calgary, 6th in the World Equestrian Games and Stockholm, and countless wins and placings at World Cup and international Grand Prix. As a competitor, Darco displayed a lot of power and stamina and was described by his rider as an extremely honest, intelligent and careful partner with a solid character. As a sire, Darco reliably passes on these characteristics to his progeny. Ranked at the top of the World Breeding Federation's Jumping Sire list in 2007, 2008, 2009, 2010, and again in 2011, many of Darco's offspring have become household names by virtue of their success in the ring: Parco, Sapphire, King Darco, Otterongo, Nonstop, Ublesco, Winningmood.

Furthermore, this foal is out of a terrific American mare line that has produced multiple Grand Prix horses and even one World Cup horse now ridden by Darragh Kenny. The beautiful Montender mare **BELLE STARR DKS** was dedicated to breeding from the start, but her mother Belle Clara DKS (by Concorde) is a special, small mare with a huge heart who has won A LOT up to the 1.50 m level. Belle Clara DKS has competed throughout the United States and has won in any company. She is a two-time winner of the grueling Jumper Derby at the Gulf Coast Winter Classic. Belle Starr's 2018 foal will be born in the United States. If the foal is bought in the US, the prices are €15000 (negotiable) for a colt and €20000 for a filly. We can also bring the foal to Europe after weaning; in that case the price is €22500 (negotiable) for the colt and €25000 for the filly.

**NABAB DE REVE** has jumped at the highest level on the international circuit with Philippe Le Jeune. He is one of the best stallions in European breeding history due to his spectacular production of high level sport winners and approved stallions : Eurocommerce London, Vigo d'Arsoilles, Kashmir Van't Schuttershof, Walnut de Muze, Candy, Equador Vh Roosaker... He was also the 2002 Belgian Horse of the Year.

This foal's mother, **KUMANA DKS**, is a rare breeding mare by the wonderful World Champion Cumano. Kumana was dedicated to breeding from the start, and she has produced four outstanding foals for us so far: Her first foal, a colt by Kannan named Ekano DKS, was sold to none other than the world-famous Haras de Semilly. We were thrilled when in November 2017 Ekano DKS became an approved stallion in France. Kumana's second foal, a filly aptly named Forget-me-not DKS, is by the former two-time WBFSH World #1 Stallion Diamant de Semilly. Kumana's third foal, Game Boy DKS, is also by the Diamant de Semilly. Exceptional showjumper himself, **DIAMANT DE SEMILLY** transmits to his offspring with an impressive regularity his strong back, scope, great balance, wonderful canter, suppleness, power, uncommon ease and super willingness, which make him a dream stallion and one of the last leading sires still alive.

The mare, **BELLA VITA**, is the full sister to Beezie Madden's former ride Via Volo (who competed in the Olympics, PanAm Games, 2011 US Horse of the Year...). Furthermore, Bella Vita has produced several outstanding foals herself, including the Zangersheide approved stallion Nic Nac (owned by Stal Van de Heffinck). Her fantastic Kannan colt from this year was purchased by Arnaud Evain (director of Fences Auction House and Groupe France Elevage (GFE) Stallion Syndicate). Bella Vita's 2018 foal will be born in France. We adore this mare, as she always produces excellent foals for us... BUT, always colts (6 of them in a row since we bought her). So, if next year's foal is female, she is not for sale. :) If it's a colt, the price is €15000.

Her first colt Drago 123 (2012 stallion by Darco) was sold as a foal and began his competitive career in the capable hands of Mario Maintz, twice qualifying for the Bundeschampionat for 5-year-olds. Drago was recently sold very well at the Holstein Elite Riding Horse Auction in Neumunster, Germany in November 2017. Beaute's second foal, Kasalla DKS by Casall, was sold very well at this year's Elite Fences Auction in France. We are VERY excited about Beaute's cross with Diamant. **BALOUBET DU ROUET** is one of the most famous show jumpers of all time. Baloubet is a classic French type, athletic, reactive, fast, respectful, powerful, flexible and impressively was still competing at the highest level at the age of 18. Baloubet du Rouet won many of the greatest international show jumping competitions. He is the only horse ever to win three World Cup finals in a row: Helsinki 1998, Gothenberg 1999 and Las Vegas 2000. In the World Cup final held at Gothenberg 2001, he was runner-up, having tied for first place after three days jumping with Tinka's Boy, losing by just 4 faults in the jump off. No horse has achieved such a record in the World Cup series, 3 wins and two seconds in 5 consecutive years. Baloubet also won Olympic Team Bronze in 2000 and Individual Gold in 2004! Placed best breeding stallion in the world (2012 and 2013 WBFSH Jumping Sires Rankings), Baloubet transmits to his offspring his balance, suppleness, jumping skills and speed. His offspring are smart and very respectful over the fences.

Out of one of the best mare lines in France! Hollywood Girl's mother, **TOP GIRL**, has 5 brothers (including 3 full brothers) who are approved stallions (Tammouz Kervec, Triomphe Kervec, Upercut Kervec, Uto Kervec, Vitot Kervec) and a full sister who competed in Nations Cups for France and produced the French 7-year-old national champion and another 1.60 horse. Hollywood Girl was born in the United States but will be moving to our farm in France in 2018. If the filly is bought in the US, the price is €20000. If the filly is bought after it arrives in France, the price is €25000.

Gilly is an athletic, tall, friendly filly by our Baloubet mare Lilly Express DKS. With legs for days, this filly should finish very tall but modern in type. As her pedigree predicts, Gilly will have blood and scope, but she is also one of the friendliest horses in our herd. Definitely a prospect for top sport, Gilly can also be a good foundation mare as her conformation and movement are exemplary. Gilly is by the WBFSh World #1 Stallion Diamant de Semilly and out of our powerful mare Lilly Express DKS (Baloubet du Rouet - Cento). Lilly was slowly started and only competed at her first shows in November 2016, at age 5. However, this horse has such a good work ethic and is so brave and scopey that she is currently competing in 6-year-old classes (at 1.30 height) with ease. The price for Gilly Express DKS is €15000 (negotiable).

Forget-Me-Not is a strapping, powerful 2-year-old filly that is a good fit for someone looking for a prospect for top sport. She is already quite tall and we expect her to finish between 1.65 m and 1.70 m in height. Most important, this is one very powerful filly: she is sweet and agreeable, but if you are looking for a young horse with blood and explosive scope, this one might be for you! As a foal, she was fond of jumping out of her stall (over a 1.20 m door), but she has mercifully outgrown that phase. The aptly named Forget-me-not DKS is by the two-time WBFSh World #1 Stallion Diamant de Semilly. This filly's mother, **Kumana DKS**, is a rare breeding mare by the wonderful World Champion Cumano. Kumana was dedicated to breeding from the start, and she has produced three outstanding foals for us so far: Her first foal, a colt by Kannan named Ekano DKS, was sold to none other than the world-famous Haras de Semilly. We were thrilled when in November 2017 Ekano DKS became an approved stallion in France. Kumana's third foal, Game Boy DKS, is also by the World #1 Stallion Diamant de Semilly. Game Boy, a gorgeous youngster with a lot of potential, has been sold to the renowned stallion producer Egbert Schep of The Netherlands. Kumana's 2017 foal is the beautiful Hanley DKS, full brother to the recently approved stallion Ekano DKS. The price is €17500 (negotiable).

In 2004, **QUIDAM DE REVEL** topped the World Breeding Championships Jumping Stallion ratings for the second year running, establishing himself as the pre-eminent sire of jumping horses. With ten (!) of his progeny jumping in Jerez 2002, he was the stallion with the most number of progeny at the WEG. A decade later, Quidam was still a force at the London Olympic Games but more through his sons. Quidam had one representative, while his son Nabab de Reve had four, and his son, Kashmir van Schutterhof, one. Another Quidam son, Quasimodo Z had two, with singles to Vigo d'Asouilles, Guidam and Dollar da la Pierre. Quidam was himself a jumping star, a member of the French Olympic Team, and fourth individually at the Barcelona Olympic Games with Hervé Godignon.

Ombre's mother is by the famous **CENTO**, who earned millions in his international sporting career. He retired from sport in top shape after a long and hard career as team Olympic gold medalist and European champion. Ombre is a beautiful, light, and athletic mare with a lot of energy, clearly stamped in type by her prepotent father. She is not overly big, and will mature at 165-167 cm. However, what she perhaps lacks in size, she more than makes up in power and athletic ability. While growing up at out farm, Ombre was always entertaining us with her acrobatics in the field, easily outrunning and outbucking her older and bigger playmates. Yet, with people, she is always very sweet and personable. Ombre has recently started work with international rider Amy Graham in Normandy, and she is already showing the talent we believed she possessed all along. Price range: €25000 - €35000.

Hopscotch DKS is a tall, modern, freakishly athletic mare from a famous Belgian mare line that has produced international showjumpers such as Beezie Madden's Via Volo, Darragh Kenny's Twister, Lauren Hough's Every Way van der Molendreef, and many more. Hopscotch has been carefully started under saddle and she is already showing great intelligence, movement, jumping technique, and scope. She is currently 1.70 m tall. We plan to start competing with her in 2018. Hopscotch is a smart but sensitive mare ideal for someone who is looking to develop a horse for top sport. Her mareline is known for great bravery, and this filly is not an exception! She wants to work and wants to cooperate with her rider. The mother of Hopscotch is our "little dynamite" mare Hacienda van de Molendreef (Clinton – Beach Boy – Alme). Hacienda is the favorite of her owner, Dejan Kronic, so she had the unenviable duty of packing him around 1.15-1.20 m courses for several years. Still, she always did it with great courage and attitude, and has not refused a jump in her ENTIRE life! Finally, Hacienda earned the right to see her potential further developed, so of late she has been superbly ridden by Marlies Van Soest and Holly Shepherd over larger courses. Hacienda debuted in the 1.40 m classes in the spring 2017, winning her first class at that height! We have great hopes for this little mare with astonishing amounts of scope. Hacienda's dam is the famous Hydra O, who is the dam of 6 international jumpers.

Hopscotch DKS is currently in training with international rider Amy Graham in Normandy. She has done a few training show rounds in 2017 and will begin her show career in earnest in 2018. Price range: €35000 - €45000.

Tall, beautiful, well-moving, scopey, and careful. A fantastic young horse for an ambitious amateur or a professional who does not want to have to work very hard to look good! This mare has all the attributes of a modern, commercial horse. From the moment she set foot in the show ring, she has shown nothing but positive attitude and desire to work with her rider. In spite of her limited training, Mira is very straightforward to ride. Mira completed 5 courses in her 4-year-old season, jumping clear rounds 4 out of 5 times. She began her 5-year-old season with a trip to the 2017 Spring Mediterranean Equestrian Tour II in Oliva, Spain, where she competed in 1.15-1.25 m courses for 5-year-old horses. She completed 5 out of 7 clear rounds, including placing 3<sup>rd</sup> and 6<sup>th</sup> in two of the Grand Prix classes in her division. This wonderful horse is VERY easy to like. She has it all!!! Price range: €40000 - €50000 (negotiable).

This powerful mare is a prime example of the famous cross of French and German bloodlines. From her Olympic-winner father, **BALOUBET DU ROUET**, Lilly has inherited limitless scope and energy: this mare seems tireless! From her mother's side, she inherited **CENTO**'s excellent jumping technique and good work ethic. Lilly was carefully started after we used her as ET donor to produce the remarkable Gilly Express DKS. Consequently, Lilly made her competitive debut at the Autumn Mediterranean Equestrian Tour (MET) in Spain in November of 2016, marching around 5-year-old courses with ease and confidence. She began her 6-year-old season back at the MET, this time completing serious 1.30 m courses with ease and impressing everyone (at only her second show circuit!). This is one VERY scopey horse, seemingly destined for top sport! She still has lots to learn, and we continue to work on her rideability, but she is extremely brave and willing. This is a TOP prospect for a serious professional or a patient amateur who will allow this superb mare to develop. She is sweet and friendly and loves being outside, whether in her paddock or going on a trail ride. Price range: €60000 - €80000.
